

Wandsworth Historian Digital Archive 1971 – 2011

Forty Years of Research at your Fingertips

The *Wandsworth Historian* is a prime reference source for anyone interested in the history of the area covered by the borough of Wandsworth, and libraries, schools and colleges, as well as individual enthusiasts, have keenly felt the scarcity of the earlier issues of this journal. Now the whole of its contents is available once again, this time on a DVD in an easily searchable format.

Thanks to the latest scanning software, every article is readily accessible, whether it be a full-length study, a book review, or a short note. Historians can browse and search for the references to their favourite topic – by locality, by a person's name, or by any other relevant word – and create their own digital library. Not a single issue since the journal first appeared in 1971 is missing, and each page is reproduced exactly as originally printed. For many this is like a dream come true.

The *Wandsworth Historian* Digital Archive 1971 – 2011 costs just £5.00 plus £1.50 to cover post and packing. Order your copy of the DVD from WHS, 119 Heythorp Street, London SW18 5BT or by emailing ngrobson@tiscali.co.uk for more details. Cheques payable to the 'Wandsworth Historical Society', please.

The *Wandsworth Historian* is the journal of the Wandsworth Historical Society. The Society's website address is www.wandsworthhistory.org.uk.
